### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
  
2. The application has been amended as follows: This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.  
  
CLAIMS 4, 6-9, 11-13, and 20 have been reinstated.  
  
Generic claim 1 is allowable. Claims 4, 6-9, 11-13, and 20 previously withdrawn from consideration as a result of an election of species requirement of 11/26/04 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the election of species, applicant(s) are advised that if any claim(s) including all the limitations of an allowable claim is presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.
